Corporate Overview & Human Capital Framework (195 Staff)

Corporate mission, engineering vision, and audited manpower deployment roster

Our Strategic Vision:

To be the benchmark electro-mechanical contractor in Saudi Arabia, delivering turnkey engineering excellence aligned with Saudi Vision 2030 through specialized self-fabrication and zero-compromise safety.

Our Corporate Mission:

Delivering high-performance MEP systems across HVAC, fire suppression, power distribution, and plumbing using advanced in-house CNC plasma lines and certified engineering supervision.

Permanent Engineering Cadres

52 Employees

Position	Qty
General Manager	1
Projects Manager	1
Financial Manager	1
Accountant	2
Mechanical Dept Manager	1
Electrical Dept Manager	1
Electrical Engineer	2
Mechanical Engineer	3
Other Direct Technical Trades (7 Positions)	40
TOTAL DIRECT CADRES	52

Specialized Support Force

143 Technicians

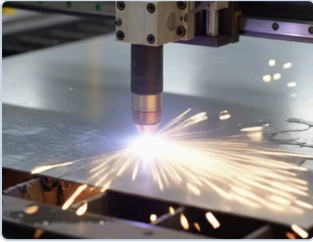

Technical Trade	Qty
Specialized Electrical Tech	35
Central HVAC Technician	25
Duct & Insulation Fabricator	20
Plumbing & Sanitary Technician	20
Certified Welder	3
Site Helpers & Laborers	40
TOTAL SUPPORT FORCE	143

**GRAND TOTAL QUALIFIED
WORKFORCE:**

CADRES**

Core Specialized Engineering Disciplines

Integrated execution capabilities backed by self-owned fabrication plants and verified test equipment

1. HVAC Systems & CNC Ductwork

Design and installation of central chillers, DX package units, VRF systems, and automated CNC Plasma duct cutting with airtight TDF flanging.

CNC Plasma cutting machine fabricating sheet metal ductwork

2. Fire Fighting & Life Safety

UL/FM certified diesel and electric fire systems, Sch 40 automatic sprinkler grids, overhead suspended piping networks, and clean agent suppression.

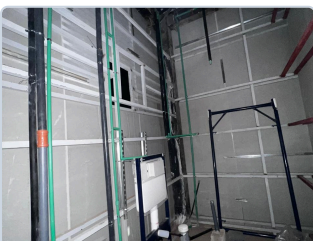

Overhead fire sprinkler distribution piping and HVAC ductwork

3. Electrical Power & Substations

13.8kV Medium-voltage power distribution, power cable pulling and dressing, and field electrical distribution panels.

Power cable pulling, dressing, and field electrical panel termination

4. Sanitary Plumbing & Water Networks

Comprehensive potable water networks (PPR/PEX), concealed sanitary installations, suspended drainage, and certified pressure testing.

PPR potable water supply and concealed sanitary piping installation

Selected Strategic Project Track Record (30 Projects)

Summary registry of active ongoing (2026) and completed projects starting with 2025 across sectors

Project Highlights Registry (30 Strategic Sites)

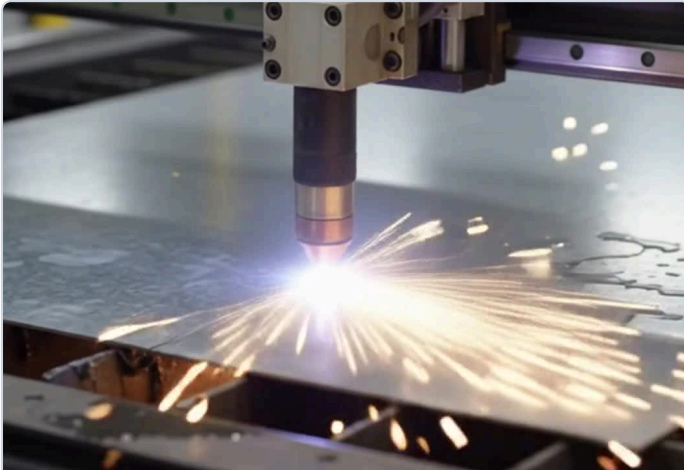

Audited Portfolio

#	Project Title	Client / Owner	Location & Year	Engineering Scope	Status
1	Saad School HVAC Package Units Supply & Installation	Al-Hussan Education Group	Al-Khobar	Supply & Installation of Central Package Units	Active 2026
2	Bandariyah Commercial Towers HVAC Maintenance	Roken Al-Tejarah Office	Al-Khobar	Annual Preventative HVAC Maintenance Contract	Active 2026
3	Medium-Voltage 13.8kV Power Cable Supply & Pulling	Chevron Saudi Arabia	Al-Khafji	13.8kV MV Power Cable Supply, Pulling & Termination	Active 2026
4	Volt Industrial Electrical Panels Manufacturing Plant	Volt Industrial Company	Sudair Industrial City	Structural, Civil & Electro-Mechanical (MEP) Works	Active 2026
5	NPCC Heavy Warehouses & Fabrication	National Petroleum Construction (NPCC)	Ras Al-Khair (2025)	Structural Steel Trusses & Industrial Finishing	Delivered
6	ChikChez Flagship Hospitality Complex	Leading Hospitality Co.	Taif (2025)	Turnkey Construction, MEP Finishing & CNC Ductwork	Delivered
7	Amwaj Dropis Marine Yacht Shipyard	Amwaj Dropis Marine	KAEC (2025)	Turnkey Marine Industrial Infrastructure & MEP	Delivered
8	Residential Villas Complex - Al-Nahda	Safari Contracting Co.	Riyadh (2025)	Full Turnkey Civil & Electro-Mechanical (MEP)	Delivered
9	Smart Locks Manufacturing Factory	Smart Locks Industrial Co.	Sudair (2025)	Turnkey Industrial Infrastructure & Integrated MEP	Delivered
10	Eastern Province Public Schools	Ministry of Education	Dammam & Khobar (2024)	Plumbing, Water Supply & Electrical Infrastructure	Delivered
11	Unaizah General Hospital	Ministry of Health	Unaizah (2024)	General Site Infrastructure, Medical Plumbing & MEP	Delivered
12	Inochem Petrochemical Plant Facilities	Inochem Chemical Co.	Ras Al-Khair (2024)	Specialized Industrial HVAC, Fire & Finishing	Delivered
13	Hail University Teaching Hospital & Tower	Ministry of Higher Education	Hail (2023)	Electrical Power Substations & Architectural MEP	Delivered
14	Girls Social Care Center Complex	Ministry of Social Affairs	Najran (2022)	Turnkey Electro-Mechanical MEP & Life Safety	Delivered
15	National Guard Offices & Warehouses	Ministry of National Guard	Jeddah / Riyadh (2022)	Integrated MEP (HVAC, Fire, MV Power, Plumbing)	Delivered
16	Royal Saudi Air Force Operations HQ	Ministry of Defense	Sakaka (2021)	Central HVAC, Air Ducting & Fire Protection	Delivered
17	stc Telecommunications Central Complex	Saudi Telecom Company (stc)	Riyadh (2021)	Central HVAC, Clean Gas Suppression & Substation	Delivered
18	Saudi Aramco Ajyal Residential Villas	Saudi Aramco	Dammam (2021)	Plumbing, Water Networks & Electrical Cabling	Delivered

* Full detailed registry of all 30 approved projects is available in the 28-Page Comprehensive Pre-Qualification Dossier (PQD).

Field Execution Photographic Showcase

Verified real project photographs covering manufacturing, pumping, power distribution, and heavy steel

Automated CNC Plasma cutting machine fabricating sheet ductwork

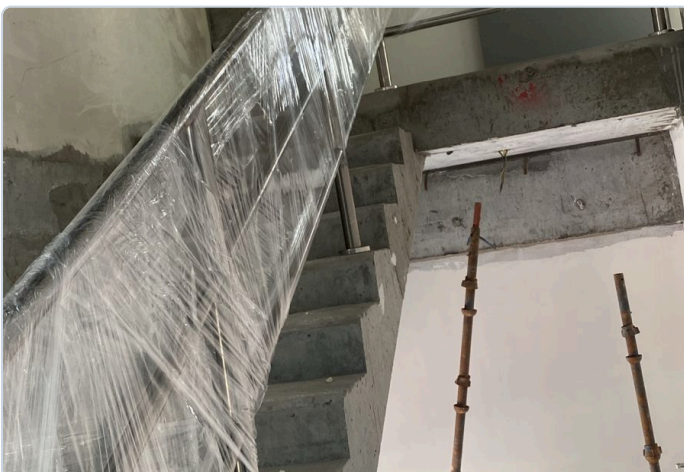

Overhead fire sprinkler distribution piping and central HVAC ductwork

Power cable pulling, dressing, and field electrical panel termination

PPR potable water supply and concealed sanitary piping installation

Heavy structural steel trusses for NPCC warehouses

Abrasive blast cleaning to Sa 2.5 standard per ISO 8501

HAYAT ALITQAN FOR CONTRACTING CO.

(HQCC) شركة حياة الإتقان للمقاولات

Your Strategic Engineering Partner for Future Vision · Saudi Vision 2030

Harnessing our technical expertise, certified engineering manpower of 195 professionals, and in-house CNC Plasma manufacturing lines to deliver your projects with utmost precision, quality, and safety.
